## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

The rejection of claims 1, 5, 6 and 10, under 35 U.S.C. 112, second paragraph is withdrawn in view of the applicants amendment and arguments filed 10/30/2002.

### ***Double Patenting***

The rejection of claims 1-10 under the judicially created doctrine of double patenting over claims 1, 11, 12 and 29 of U. S. Patent No. 6,132,823, is maintained for the reasons set forth in the action mailed 9/11/2002.

### ***Claim Rejections - 35 USC § 102***

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

The rejection of claim 5 under 35 U.S.C. 102(a) as being anticipated by US 4857675 (Marancik et al.) or US Dowie (US 5450266) is withdrawn in view of the applicants amendment and arguments filed 10/30/2002. Due to an inadvertent error, the examiner rejected claim 5 and not independent claim 6.

The rejection of claim 1 under 35 U.S.C. 102(a) as being anticipated by US 4857675 (Marancik et al.) or US Dowie (US 5450266) is maintained for the reasons set forth in the action mailed 9/11/2002.

Art Unit: 1751

The applicant argues that the reference fails to teach all the limitations of claim 1. Claim 1 (and 6) only requires a heat transfer surface with a thermal conductivity greater than silver.

Marancik clearly teaches that the "objects of the invention are to attain high heat transfer", which the examiner believes would read on the instantly claimed invention (col. 3, lines 26-28).

Dowie clearly teaches an "enhanced heat transfer surface" which the examiner believes would read on the instantly claimed invention (col. 2, lines 61).

### ***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.

In view of the forgoing, the above claims have failed to be patently distinguishable over prior art.

The remaining references listed on form(s) 892 and 1449 have been reviewed by the examiner and are considered to be cumulative to or less material than the prior art references relied upon in the rejection above.
